PROFESSIONAL PROFILE

I am a Software Developer with a strong passion for building meaningful, user-friendly digital solutions. My goal is to use my experience in web and mobile development, AI integration, and scalable application design to create tools that help individuals and businesses reach their full potential.

I specialize in developing applications that are efficient, accessible, and intuitive, with a particular interest in modern technologies. I'm committed to continuous learning and stay up to date with modern technologies including React.js, Node.js, and Strapi CMS which allows me to deliver solutions that are both technically sound and aligned with real user needs.

What truly sets me apart is my ability to combine technical expertise with empathy and clear understanding of how people use technology. I enjoy working in collaborative environments, sharing knowledge, and mentoring others. Contributing to community growth and helping others advance in their learning journey is something I value deeply.

I'm driven by the desire to solve real-world problems and build software that makes a meaningful difference. By hiring me, you're gaining a developer who is not only skilled and adaptable but also genuinely committed to creating impactful solutions that support your organization's vision. I'm excited to bring my problem-solving mindset, creativity, and dedication to your team.

CAREER SUMMARY

Gomycode
Software Developer Instructor: August 2024 **-** Present

Abuja, Nigeria

Trained beginner and intermediate learners in software development technologies at Gomycode, delivering clear and engaging instruction tailored to different skill levels. Designed and implemented hands-on projects that reinforced theoretical concepts and strengthened practical abilities. Promoted teamwork and collaboration, guiding students through successful project completion that highlighted their technical skills and problem-solving capabilities.

Integrated modern tools, emerging technologies, and industry best practices into the training program to ensure students were well-prepared for real-world job market demands. Provided personalized mentorship and support, creating a positive, encouraging learning environment that helped students grow in confidence and develop strong technical foundations.

Google
Trainer – Build with AI 2025: August 2025   (**My Badge**)

I served as a trainer for the Build with AI 2025 event, guiding participants through practical AI tools, workflows, and development techniques while supporting students in building innovative, AI-powered solutions.

Starkweb Technologies
Software Developer: June 2023 **-** Dec 2023

Abuja, Nigeria

Led the development of scalable, maintainable web applications from the ground up using MongoDB, React, Node.js, and Express.js. Collaborated closely with the product management team to prioritize features and requirements, ensuring timely delivery and improved customer satisfaction. Developed and optimized REST APIs with Node.js and Express, enhancing frontend data handling, increasing team efficiency, and reducing response times. Worked alongside other developers to design and refine algorithms for key features, resulting in a more secure and reliable web application.

Agriczone
Web Developer: June 2022 **-** April 2023

Abuja, Nigeria

Orchestrated the creation and launch of Agriczone, a platform solving key challenges in Nigeria's agricultural sector by connecting farmers, extension officers, and consumers. Led a cross-functional team of developers, designers, and agricultural experts, fostering collaboration and innovation. Prioritized user feedback and iterative development to ensure continuous improvement and meaningful impact.

COMMUNITY & VOLUNTEER EXPERIENCE

Datacom Software Development Job Simulation on Forage (June 2025)
Wellington, New Zealand

Completed a simulation focussed on how the software development team at Datacom approaches their work. Reviewed a web application and planned for future improvements.Identified the root cause of bugs and implemented a fix to improve the application.

TECHNICAL SKILLS & TOOLS

HTML | CSS | JavaScript | Typescript | React | React Native | Components libraries | State management
NodeJs | ExpressJs | MongoDB | SQL | GraphQL

Git | GitHub | VScode | Postman | AI | Notion | Slack | Google workspace

PERSONAL SKILLS

Effective Communication
Being able to clearly articulate ideas, listen actively, and adapt your message to different audiences (verbal and
written). Communication is key to successful collaboration and leadership.

Teamwork
Working well with others, sharing ideas, and being adaptable to different team roles. Employers look for people
who can collaborate and support team goals.

Willingness to Learn
Showing curiosity and eagerness to develop new skills and knowledge.

Positive Attitude
Demonstrating optimism and a can-do approach in the workplace, even when facing challenges. This mindset can motivate others and contribute to a productive environment.
