PERSONAL STATEMENT

I'm a highly motivated and innovative software developer with a passion for creating impactful, user-friendly solutions. My career goal is to leverage my expertise in web and mobile development, AI integration, and scalable application design to develop tools that empower individuals and businesses to achieve their full potential. I specialize in building applications that are not only efficient but also accessible and easy to use, with a strong focus on education and skill development. What sets me apart is my dedication to continuous learning and my ability to combine technical expertise with a deep understanding of user needs. I thrive in collaborative environments and am committed to mentoring others and contributing to community development. I believe in delivering solutions that solve real-world problems and drive meaningful change. By hiring me, you gain a professional who is not only skilled in modern technologies like React.js, Node.js, and Strapi CMS but also deeply passionate about creating impactful solutions that align with your organization's goals. I'm eager to bring my problem-solving abilities, creativity, and dedication to your team.

WORK HISTORY

Gomycode

Abuja, Nigeria

Jan 2024 - Present

Software Developer Instructor

Trained a team of beginners and intermediate at Gomycode in software development technologies. Designed and implemented hands on projects to reinforce theoretical concepts and enhance practical skills. Encouraged teamwork and collaboration, ensuring the successful completion of projects that demonstrated practical skills and problem solving abilities. Integrated cutting-edge technologies and industry best practices into the training, ensuring that students and trainees were well-prepared for the demands of the job market. Provided individual mentorship and support to students and trainees, fostering a positive and encouraging learning environment.

Starkweb Technologies

Abuja, Nigeria

Jun 2023 - Dec 2023

Software Developer

Led the development of scalable and easy-to-maintain web applications from scratch using MongoDB, React, Node.js, and Express.js. Helped the product management team to prioritize features and requirements, ensuring timely delivery and increasing customer satisfaction by 60%. Built and implemented new REST APIs using Express and Node.js, improving the frontend team's data handling, resulting in 75% increased efficiency and 50% reduction in response time. Worked with other developers to create and improve algorithms for specific tasks and features, leading to a web application that was 90% more secure and reliable.

Agriczone

Abuja, Nigeria

Feb 2023 - Aug 2023

Chief Technology Officer

Orchestrated the creation and launch of Agriczone, a digital platform addressing critical challenges in Nigeria's agricultural sector, bridging gaps between

farmers, agricultural extension officers, and consumers. Led a diverse team of developers, designers, and agricultural experts, fostering a collaborative environment that encouraged innovation and problem-solving. Prioritized feedback and iterative development, leading to regular platform enhancements that catered to user needs and industry advancements.

Trainer – Build with AI 2025

[Click To See Badge Earned](#)

Selected to serve as a trainer for the Google Developer **Build with AI 2025** event.

Facilitated hands-on sessions, guided participants in applying AI tools, and supported collaborative project development.

- JavaScript
- React JS
- Node JS

PERSONAL SKILLS

Effective Communication

Being able to clearly articulate ideas, listen actively, and adapt your message to different audiences (verbal and written). Communication is key to successful collaboration and leadership.

Teamwork

Working well with others, sharing ideas, and being adaptable to different team roles. Employers look for people who can collaborate and support team goals.

Willingness to Learn

Showing curiosity and eagerness to develop new skills and knowledge. Employers appreciate individuals who are open to learning, growing, and adapting to new challenges or technologies.

Positive Attitude

Demonstrating optimism and a can-do approach in the workplace, even when facing challenges. This mindset can motivate others and contribute to a productive environment.

Resilience

The ability to recover quickly from setbacks, stay motivated during tough times, and keep moving forward. Resilience helps you cope with pressure and maintain performance in difficult situations.

Self-Management

Demonstrating the ability to set and manage your own goals, stay organized, prioritize tasks, and work independently. This shows that you can take initiative and handle responsibility.

COMMUNITY & VOLUNTEER EXPERIENCE

Datacom Software Development Job Simulation on Forage

Wellington, New Zealand

Jun 2025 - Present

Completed Job Simulation

Completed a simulation focussed on how the software development team at Datacom approaches their work. Reviewed a web application and planned for future improvements. Identified the root cause of bugs and implemented a fix to improve the application.

INTERESTS

- I'm particularly interested in building accessible tools and platforms that solve real-world problems.
- Working in dynamic, cross-functional teams is something I really enjoy. I find the combination of diverse perspectives and expertise exciting, especially when brainstorming innovative solutions to complex challenges.
- I have a strong interest in continuous personal and professional growth. I'm always looking for opportunities to learn new programming languages, tools, and frameworks to stay ahead of industry trends.
